

Bizoe Crossroad Semillon 2019

Vineyards

The wine is made from Semillon vineyards that is planted in Darling and Franschhoek. Different terroir and soil structures from both regions gives this wine its unique character.

Winemaking

The wine is a combination of Semillon grapes from Darling 70% and Franschhoek 30%. Co-fermentation took place in an Apollo Fermentation tank. The wine will spend a further 10 months on the fermentation lees before bottled.

Analysis

Alcohol 11.62%
Total Acidity 6.1g/l
Residual Sugar 2.1g/l
pH 3.18

Winemakers notes

Crossroad, splits the natural influence of two widely diverse Semillon vineyards, that compliment each other perfectly in the bottle. With a beautiful combination of citrus and stone fruit, and persistent mineral-tinged finish, this Semillon takes the variety to a new level of quality and complexity.
